1 Your class was awesome! I wish you could just teach all my classes because you can make any topic seem interesting.
2 Wants students to succeed, very approachable.
3 Thank you so much for challenging me to think more critically! I loved the way this class didn't say: "this is what you should do." Instead, it taught me how to think about issues in a different way so I can make better decisions in the future.
4 Scott is great!
5 Really enjoyed the class.
6 Really enjoyed learning with Scott. He is an excellent facilitator of learning.

1 The expletives and talking about killing babies got a little old. But perhaps everyone can agree that killing babies is bad.
2 Scott Hill often include ridiculous topics for discussion that have nothing to do with business settings. This class was purely memorization of stupid arguments. I would have appreciated a class to prepare me for my future career
3 Overall great class. You did a great job of explaining the arguments and hearing everyone's opinions and side and then summing it up for the rest of the class.
4 I enjoyed the class

1 keep it up!
2 You rock Scott, don't ever change.
3 Strengths: in class discussion was key to learning and bringing up ideas. I really like the way Scott facilitated this discussion, along with providing clear arguments, theories, and lecture material. I felt very prepared for exams, and thoroughly enjoyed going to class. Weaknesses: more timely grading maybe, wasn't a huge issue
4 Scott was excellent and very relatable to the students. Made the class fun and engaging and set you up for success on test
5 Scott was great and enthusiastic about the class. He gave strange examples, but they portrayed his points.
6 Scott was one of my favorite teachers I have ever had at Auburn. He was a very interactive teacher and tried to make sure everyone understood exactly what he was teaching! He was extremely helpful and thorough. I would take him again in a heartbeat. Get more teachers like Scott Hill!!!!!!
7 I really loved your class. The only thing that I would recommend is some type of credit for coming to class or participating in class. I just think the people that actually come and talk should be rewarded.
8 I enjoyed this class! It made me think in ways I do not normally and answer difficult questions.
9 Cool guy. I liked how relaxed the class was.
10 Class should be renamed from "Business Ethics" to simply "Ethics". No business aspects were covered whatsoever in this course.

1 True and False can be tricky even when you know the material because of wording, AKA what part of this statement is the true/falsehood hinging on. Scott is helpful when you ask him during test though, so not a huge problem. I just know people who lose points due to the trickiness of true and false wordings. Overall great class / material / teacher
2 Scott is definitely one of my favorite teachers at Auburn; he facilitated class discussions excellently and that helped my understanding of the content. One thing that I didn't like is that after he explained a concept, he would immediately ask someone to regurgitate what he had just said; this seemed pointless and like a waste of time to me. If we were paying attention, we knew what he was talking about, and if we weren't, someone else saying it isn't going to help.
3 Scott did a great job teaching this course. He explained all course concepts very clearly and encouraged the class to come up with their own opinions of each topic.
4 I enjoyed this class. He did encourage us to think about each topic and it was a chance to stretch your mind a little. We didn't get too much into the "Business" part of it though and I don't know how I would apply what we did cover.
