1 This is probably my favorite class set-up I've ever had. I usually get very nervous speaking in front of a class, but the casual back-and-forth conversation style of the class really helped. This is the only class I've ever taken where I don't get nauseous when I speak. I also love the idea/implementation of the discussion cards, because you don't necessarily have to contribute every day but the fact that people do have to contribute somewhat keeps the class from just being a boring lecture. Scott was very laid-back and approachable.
2 Professor Hill was great. He showed an immense amount of respect for each student, was extremely kind and understanding regarding any sort of question or situation that might have arose, and he made the class interesting. He for sure sparked my interest in philosophical studies, which is not something that I expected to say while walking into the class on the first day.
3 Professor Hill was one of the best professors I have ever had. He was extremely down to earth and dedicated to his students. I am planning on taking him again for another course next fall!

- 1 more time to learn the subjects we are talking about.
- 2 This was an awesome class, I really enjoyed Professor Hill too. He was very relaxed and it was great for this class environment. He taught very well, too.
- 3 Scott is a really humorous guy, and that added in with the philosophy made it much more enjoyable.
- 4 Really fun course. Great discussions. Would recommend to anyone.
- 5 Professor Scott was by far my favorite teacher this semester. He always kept the class interesting and made the material fun to learn. He really cared about what we had to say and would never make you feel bad about what you said. He was more than willing to help you with anything but most of the time we would never have questions because he goes over everything so well.

1	great class atmosphere
2	I'm actually kind of sad that I can't take his class again. I really enjoyed it. It really opened up my eyes and made me think from as many perspectives as possible.
3	He is an awesome professor. The environment in his class was very chill, and he is so great at making you think critically. He is by far my favorite professor at Auburn. I learned so much in his class!
4	He has been one of the best professors I've had in my three years at AU. Please pay him more money!
