- This was one of my favorite classes at auburn. Scott is such a cool Professor and really challenges his students to think deeply about the course topics.
- The in-class discussion was really beneficial to my learning in this course!
- It feels like questions on the quizzes can be ambiguous but Scott really wants everyone to succeed. His personality is so funny
- Dr. Scott is very good. I like studying his class. thank you.
- A really interesting and thought provoking class. The only issue I had was sometimes the topics seemed totally separate and disconnected. I would have loved to have seen how they all played off of each other and worked together.

- This was a cool class. I really enjoyed talking about all of the different theories and the hypothetical scenarios that came with them. If I were to give one criticism of this class, maybe include more group work in future courses. I think that students learn a lot when listening to different perspectives via their peers. Good of luck with your future career endeavors!
- SCOTT HILL YOU ARE AWESOME!!!  
Thank you for being such an awesome teacher! You make your class an environment where it is comfortable and encouraged to speak in class and give no judgment what so every to what anyone says.
- You are great at explaining topics and making them less confusing.  
Thank you for all that you do! You are much appreciated by our class and will be missed!
- AUBURN YOU SHOULD KEEP HIM AROUND
- Keep doing what you're doing man! Your class rocked!
- I would incorporate other assignments than just quizzes and discussion. Sometimes topics seemed unclear but it was also my first philosophy class
- HE WAS THE BEST!!!!
- Dr. Scott is so nice.

- This course was amazing! Some of the material was slightly hard to swallow, but Mr. Hill did a fabulous job of breaking it down. He was kind, attentive, and hilarious throughout the entire semester.
- Professor Hill was an incredible professor that thoroughly encouraged interaction between all students. He made this course very enjoyable and allowed each student to feel equally important.
- I thought everything was great.
- Dr. Hill is an awesome professor and I looked forward to going to class because of his enthusiasm and excitement. Class was never boring, and he made every student feel welcome to talk and be heard. I'm happy he doesn't make an intro class seem extremely difficult, and instead makes it a class to have fun in and think about new concepts together. The atmosphere he created was welcoming and fun, which is beneficial to getting students to talk. I would definitely take another class with him if were to teach it.
- Don't need to change anything. I really enjoyed your class and learned a lot. Thank you!

- In a department as ambiguous as philosophy, Professor Hill does a great job of using examples to explain various teachings of philosophers and arguments. However, his bi-weekly quizzes often contained multiple choice options that could often be challenged instead of one best answer.
- I love this class!
