1 love this class!
2 Very fair and reasonable when it came to the content of the course. The way he broke down the material made it very easy to learn and remember
3 This is how a professor should be. Although I am an Animal Sciences major, Professor Hill made the class fun and interesting. He gave out study guides and walked us through step by step on certain topics we didn't quite grasp. I've never understood why professors think they're too good for study guides, because telling a student "study everything", is ridiculous. Laid back guy, talked about his personal life which made it easier to relate. Honestly, if students could have multiple Scott Hill's teach their classes instead of some academia professors that try and talk to you with a PHD attitude, more people would enjoy class.
4 Scott Hill's lectures were always interesting and kept the students engaged. He made the subject very straightforward and had no intentions of trying to over complicate the material.
5 I really enjoyed taking this class. It was nice how quickly we got our test grades back, and I really appreciated the study guides and notes being posted on canvas.
6 I LOVED DR. HILL! He led a very open classroom, where anyone with any opinion can feel free to share it without being criticized. He would often challenge our opinions in order to lead us to think more about why we thought the way we did without degrading our ideas. I feel like I am more firm in what I believe, and feel like I am more apt to sharing what I believe because of his teaching style. He taught in a way we learned the material, and were able to share our ideas. I would recommend him to anyone taking the class.

1 loved this class
2 Throughout the semester, Scott Hill has become one of my favorite professors at Auburn. He was very engaging in class and was straightforward with the material we needed to know. I loved every second of his class.

3	This class was a lot of fun. I really liked having the discussions as I felt like it helped me to really get a lot out of the class. It was nice having the notes being posted online as it helped me to better be a part of the discussions and listen to the lectures instead of worrying about getting all the notes written down during the class. I feel that this really helped me to get a lot out of the class and helped make it a lot of fun.

1 Wouldn't change a thing! He's great!
2 Overall, I enjoyed the structure of this class. Some areas for improvement could be to use more realistic examples although some topics are far fetched they could still apply.
3 Great class
4 Great class!
5 Dr. Hill did a great job with this course! I greatly enjoyed it, and it really made me think. He was super unbiased and always made everyone feel comfortable to express how they felt in discussion. He's a great person and professor!

1 the open-class structure was very helpful to my learning and I thoroughly enjoyed the lectures and discussions
2 This was honestly one of the most interesting and engaging classes I've ever taken at Auburn. He was a very dynamic teacher that encouraged us to share our ideas, would challenge them, but at the same time never make us feel ashamed about them. I never dreaded going to class, if I had more time at Auburn I would look to take another one of his classes!!
3 Teacher was open minded and extremely accomidating to students. He explained everything very well.
4 Scott is a great teacher who highly encourages class participation. I enjoyed his class and learned well.

1 Scott Hill is fantastic. I had heard of stories from past semesters of students not enjoying their health ethics class because it was mostly based on getting discussion points and writing papers. Scott Hill made ethics enjoyable. He created an environment where in-depth thinking was encouraged and rewarded. Students wanted to contribute to discussion because of this environment. He was also a perfect moderator. He knew how to play devil's advocate to any student's stance in a respectful way which facilitated further discussion. He was a fantastic ethics professor.
2 I love Dr. Hill and would take this class 100 times again if I could.
3 I enjoyed the class participation and conversation.
